Invest some of what you earn today for what you plan to accomplish tomorrow.

Vanderbilt University and Medical Center offer outstanding convenience and a variety of investment options in the Vanderbilt University Retirement Plan (the Plan). Take a look and see what a difference enrolling in the Plan could make in achieving your goals.

**Benefit from:**

**Employee voluntary and mandatory contributions.** You can make voluntary contributions to the Plan on a pretax and/or Roth 403(b) after-tax contribution basis immediately. If you are eligible for mandatory and Vanderbilt matching contributions, the voluntary contribution amount that you elect will be in addition to the mandatory contributions.

**Vanderbilt matching contributions.** To help your contributions grow, Vanderbilt will make employer matching contributions on your mandatory and voluntary contributions, if you are eligible. To learn more about matching contributions visit http://hr.vanderbilt.edu/benefits/retirement.

**Roth 403(b) contributions.** Roth contributions to your Plan allow you to make after-tax contributions and withdraw any associated earnings completely tax free at retirement as long as the distribution is a qualified one.

**Retirement planning tools.** You have access to online tools designed to help you manage your assets as you plan for retirement.

**Convenience.** Your contributions are automatically deducted regularly from your paycheck.

**Tax savings now.** Your pretax contributions are deducted from your pay before income taxes are taken out. This means that you can actually lower the amount of current income taxes you pay each period. It could mean more money in your take-home pay versus saving money in a taxable account.

**Tax-deferred savings opportunities.** You pay no taxes on any earnings until you withdraw them from your account, enabling you to keep more of your money working for you now.

**Portability.** You can roll over eligible savings from a previous employer into Vanderbilt’s Plan. You can also take your account balance with you if you leave.

**Investment options.** You have the flexibility to select from investment options that range from more conservative to more aggressive, making it easy for you to develop a well-diversified investment portfolio. Your Plan offers you the option of having experienced professionals manage your account for you.

**Online beneficiary.** With Fidelity’s Online Beneficiaries Service, you can designate your beneficiaries, receive instant online confirmation, and check your beneficiary information virtually any time.

**Catch-up contributions.** If you make the maximum contribution to your Plan accounts, and you are 50 years of age or older during the calendar year, you can make an additional “catch-up” contribution of $6,000 in 2016.

To learn more about what your Plan offers, see “Frequently asked questions about your Plan” later in this guide.

Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

When can I enroll in the Plan?
You are eligible to make voluntary contributions to the Plan immediately.

How do I enroll in the Retirement Plan?
Log on to Fidelity NetBenefits® at www.netbenefits.com/vanderbilt or call the Fidelity Retirement Service Center at 1-800-343-0860 to begin making voluntary contributions in the Plan.

How much can I contribute?
Through automatic payroll deduction, you may contribute the lesser of 100% of your eligible pay, or the applicable IRS contribution limit on a pretax and/or Roth 403(b) after-tax contribution basis.

What is the IRS contribution limit?
The IRS contribution limit for 2016 is $18,000.

What is the Roth contribution option?
A Roth contribution to your Plan allows you to make after-tax contributions and withdraw any associated earnings completely tax free at retirement - as long as the distribution is a qualified one. A qualified distribution, in this case, is one that is taken at least five tax years after your first Roth 403(b) contribution and after you have attained age 59½, or become disabled or die. Through automatic payroll deduction, you can contribute between 1% and 100% of your eligible pay as designated Roth contributions, up to the annual IRS dollar limits.

For more information please log on to NetBenefits® at www.netbenefits.com/vanderbilt and select "Library" from the home page.

When is my enrollment effective?
Your enrollment becomes effective once you elect a contribution percentage for voluntary contributions, which initiates the deduction from your pay. The voluntary salary deductions will generally begin with your next pay period after we receive your enrollment information, or as soon as administratively possible.

If you become eligible for mandatory contributions and are not yet enrolled in the Plan, you will be automatically enrolled at that time. To learn about mandatory contributions to the Plan visit the Vanderbilt HR website at http://hr.vanderbilt.edu/benefits/retirement.

Does Vanderbilt contribute to my account?
If you are eligible, Vanderbilt will help your retirement savings grow by matching up to 5% of your contributions. To learn more about Vanderbilt’s matching contributions visit the Vanderbilt’s HR website at http://hr.vanderbilt.edu/benefits/retirement.

What are my investment options?
To help you meet your investment goals, the Plan offers you a range of options. You can select a mix of investment options that best suits your goals, time horizon, and risk tolerance. The many investment options available through the Plan include conservative, moderately conservative, and aggressive funds. A complete description of the Plan’s investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online at Fidelity NetBenefits®.

Target Date Funds. The Plan offers target date funds which provide a blend of stocks, bonds,
and short-term investments within a single fund. The target date funds have an asset allocation based on the number of years until the fund’s target retirement date.

Target date funds are designed for investors expecting to retire around the year indicated in each fund’s name. The investment risk of each fund changes over time as each fund’s asset allocation changes. The funds are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high yield, small cap, commodity-linked and foreign securities. Principal invested is not guaranteed at any time, including at or after the fund’s target date.

Annuities. An annuity is a contract issued by an insurance company and purchased by a consumer for long-term investing. There are various fees and expenses associated with annuities, and in certain situations withdrawal penalties may be applicable. An annuity is not a mutual fund. There are two types of annuities, variable and fixed. Your Plan offers a fixed annuity. A fixed annuity lets you lock in a guaranteed rate of interest for a specific period—normally between three months and one year. As each “guarantee rate period” comes to a close, the insurance company sets a new interest rate for the upcoming period. Interest rates and time periods vary depending on the annuity contract. Guarantees are subject to the claims paying ability of the insurance company.

Fidelity BrokerageLink®

For those desiring the most investment flexibility and choice, the Plan offers a self-directed brokerage option, which gives you access to many other mutual funds. A complete description of the Plan’s investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online at Fidelity NetBenefits®.

Fidelity® Portfolio Advisory Service at Work

For an additional fee, the Plan also offers Fidelity® Portfolio Advisory Service at Work, a managed account service that lets you delegate the day-to-day management of your workplace savings plan account to professional investment managers. Fidelity’s experienced professionals evaluate the investment options available in your Plan and identify a model portfolio of investments appropriate for an investor like you. The service then invests your account to align with this model portfolio and provides ongoing management of your account to address changes in the markets, your Plan’s investment lineup, and changes in your personal or financial situation.

With a managed account, you can take advantage of Fidelity’s resources and experience to help ensure that:

- Your investments are managed through the ups and downs of the market.
- You’re keeping your accounts aligned with your goals through annual reviews and check-ins.
- Your account is actively managed to create an opportunity for long-term gains while managing the risk associated with investing.

To see if Fidelity® Portfolio Advisory Service at Work is right for you, log on to NetBenefits® at https://netbenefits.fidelity.com/pas where you can easily enroll in the Service and learn more.

Fidelity Portfolio Advisory Service at Work is a service of Strategic Advisers, Inc., a registered investment adviser and a Fidelity Investments company. This service provides discretionary money management for a fee.

Please note that performance of the model portfolios depends on the performance of the underlying investment options. These investments are subject to the volatility of the financial markets in the U.S. and abroad and may be subject to additional risks with
investing in highyield, small-cap, and foreign securities.

What if I don’t make an investment election?

We encourage you to take an active role in saving for retirement and choose investment options that best suit your goals, time horizon, and risk tolerance. If you do not select specific investment options for your contributions, they will be invested in the Vanguard Institutional Target Retirement Fund Institutional Shares with the target retirement date closest to the year you might retire, based on your current age and assuming a retirement age of 65, at the direction of Vanderbilt. Please refer to the chart in the Investment Options section for more detail.

If no date of birth or an invalid date of birth is on file at Fidelity your contributions may be invested in the Vanguard Institutional Target Retirement Income Fund Institutional Shares.

How much should I save for retirement?

Fidelity’s planning tools are designed to help you manage your assets as you plan for retirement. Simply log on to Fidelity NetBenefits® at www.netbenefits.com/vanderbilt to access these tools.

What "catch-up" contribution can I make?

If you have reached age 50 or will reach 50 during the calendar year January 1 – December 31 and are making the maximum Plan or voluntary contribution, you may make an additional “catch-up” contribution each pay period. The maximum annual catch-up contribution is $6,000. Going forward, catch-up contribution limits will be subject to cost of living adjustments (COLAs) in $500 increments.

When am I vested?

You are immediately 100% vested in your own contributions to the Vanderbilt University Retirement Plan, as well as in any of Vanderbilt’s matching contributions and any earnings on them.

Can I take a loan from my account?

Although your Plan account is intended for the future, you may borrow from your account for any reason.

Generally, the Plan allows you to borrow up to 50% of your vested account balance. The minimum loan amount is $1,000, and a loan must not exceed $50,000. You then pay the money back into your account, plus interest, through Fidelity’s Automated Clearing House (ACH) Service where the payments are deducted from your personal bank or credit union account. Any outstanding loan balances over the previous 12 months may reduce the amount you have available to borrow. You may have one loan outstanding at a time. The cost to initiate a loan is $75, and there is a quarterly maintenance fee of $6.25. The initiation and maintenance fees will be deducted directly from your individual Plan account. If you fail to repay your loan (based on the original terms of the loan), it will be considered in "default" and treated as a distribution, making it subject to income tax and possibly to a 10% early withdrawal penalty. Defaulted loans may also impact your eligibility to request additional loans. Be sure you understand the Plan guidelines and impact of taking a loan before you initiate a loan from your Plan account.

To learn more about or request a loan, log on to www.netbenefits.com/vanderbilt or call the Fidelity Retirement Service Center at 1-800-343-0860.
Can I make withdrawals?
Withdrawals from the Plan are generally permitted when you terminate your employment, retire, reach age 59½, or have severe financial hardship, as defined by your Plan.

Can I move money from another retirement plan into my Vanderbilt University Retirement Plan?
You are permitted to roll over eligible pretax contributions from another 401(k) plan, 401(a) plan, 403(b) plan or a governmental 457(b) retirement plan account or eligible pretax contributions from conduit individual retirement accounts (IRAs). A conduit IRA is one that contains only money rolled over from an employer-sponsored retirement plan that has not been mixed with regular IRA contributions.

Contact your Fidelity Investment Representative for details.

How do I access my account?
You can access your account online through Fidelity NetBenefits® at www.netbenefits.com/vanderbilt or call the Fidelity Retirement Service Center at 1-800-343-0860 to speak with a representative or use the automated voice response system, virtually 24 hours, 7 days a week.

How do I designate my beneficiary?
Fidelity’s Online Beneficiaries Service, available through Fidelity NetBenefits®, offers a straightforward, convenient process that takes just minutes. Simply log on to NetBenefits® at www.netbenefits.com/vanderbilt and click Profile from the main menu. If you do not have access to the Internet or prefer to complete your beneficiary information by paper form, please contact Fidelity at 1-800-343-0860.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity’s analysis of the characteristics of the general investment categories of the investment options and not on the actual security holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options’ Morningstar categories as of 01/31/2016. Morningstar categories are based on a fund’s style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options’ objectives and do not predict the investment options’ future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category, and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decision. The spectrum does not represent actual or implied performance.
Fidelity BrokerageLink® combines the convenience of your workplace retirement plan with the additional flexibility of a brokerage account. It gives you expanded investment choices and the opportunity to more actively manage your retirement contributions. A self-directed brokerage account is not for everyone. If you are an investor who is willing to take on the potential for more risk and you are prepared to assume the responsibility of more closely monitoring this portion of your portfolio, it could be appropriate for you. However, if you do not feel comfortable actively managing a portfolio of options beyond those offered through your plan’s standard investment options, then a self-directed brokerage account may not be appropriate for you. Additional fees apply to a brokerage account; please refer to the fact sheet and commission schedule for a complete listing of brokerage fees. Remember, it is always your responsibility to ensure that the options you select are consistent with your particular situation, including your goals, time horizon, and risk tolerance.

**Vanguard Institutional Target Retirement Income Fund Institutional Shares**

**VRS Code:** 65221

**Fund Objective:**
The investment seeks to provide current income and some capital appreciation.

**Fund Strategy:**
The fund invests in other Vanguard mutual funds according to an asset allocation strategy designed for investors currently in retirement. As of September 30, 2015, the fund’s asset allocation among the underlying funds was as follows: Vanguard Total Bond Market II Index Fund 37.2%, Vanguard Total Stock Market Index Fund 18.1%, Vanguard Short-Term Inflation-Protected Securities Index Fund 16.8%, Vanguard Total International Bond Index Fund 15.9%, Vanguard Total International Stock Index Fund 12.0%.
**Fund Risk:** The fund is subject to the volatility of the financial markets, including that of equity and fixed income investments. Fixed income investments carry issuer default and credit risk, inflation risk, and interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Principal invested is not guaranteed at any time, including at or after retirement. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Delaware Smid Cap Growth Fund Institutional Class**

**VRS Code:** 79945

**Fund Objective:** The investment seeks long-term capital appreciation.

**Fund Strategy:** The fund invests primarily in common stocks of growth-oriented companies that its portfolio managers believe have long-term capital appreciation potential and expect to grow faster than the U.S. economy. Under normal circumstances, the fund invests at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in equity securities of small-and mid-capitalization companies (80% policy).

**Fund Risk:** Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

**Footnotes:**
- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- Except for Life of Fund returns, the analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/09/1992. **DFA U.S. Targeted Value Portfolio Institutional Class**

**VRS Code:** 42266

**Fund Objective:** The investment seeks long-term capital appreciation.

**Fund Strategy:** The fund, using a market capitalization weighted approach, purchases a broad and diverse group of the readily marketable securities of U.S. small and mid cap companies that the Advisor determines to be value stocks. It may use derivatives, such as futures contracts and options on futures contracts for U.S. equity securities and indices, to adjust market exposure based on actual or expected cash inflows to or outflows from the Portfolio.
Fund Risk: The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:
- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

Footnotes:
- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Dodge & Cox Global Stock Fund

VRS Code: 18532

Fund Objective: The investment seeks long-term growth of principal and income.

Fund Strategy: The fund invests primarily in a diversified portfolio of equity securities issued by companies from at least three different countries. It will invest at least 40% of its total assets in securities of non-U.S. companies and at least 80% of its total assets in equity securities, including common stocks, depositary receipts evidencing ownership of common stocks, preferred stocks, securities convertible into common stocks, and securities that carry the right to buy common stocks. The fund typically invests in medium-to-large well established companies based on standards of the applicable market.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:
- Someone who is seeking an investment that invests in both domestic and international markets.
- Someone who is willing to accept the volatility of the markets and the generally higher degree of risk associated with international investments.

Footnotes:
- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Harding Loevner International Equity Portfolio Institutional Class

VRS Code: 79276

Fund Objective: The investment seeks long-term capital appreciation.

Fund Strategy: The fund invests in companies based in developed markets outside the U.S. as well as in established companies in emerging and frontier markets. It normally invests at least 80% of its net assets (plus any borrowings for investment purposes) in common stocks, preferred stocks, rights and warrants issued by companies that are based outside the United States, securities convertible into such securities (including Depositary Receipts), and investment companies that invest in the types of securities in which the Portfolio would normally invest. The fund normally holds investments across at least 15 countries.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:
- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.
Loomis Sayles Core Plus Bond Fund Class Y

VRS Code: 89228

Fund Objective: The investment seeks high total investment return through a combination of current income and capital appreciation.

Fund Strategy: Under normal market conditions, the fund will invest at least 80% of its net assets (plus any borrowings made for investment purposes) in bonds, which include debt securities of any maturity. In addition, it will invest at least 65% of its net assets in investment grade securities. The fund will generally seek to maintain an effective duration of +/- 2 years relative to the Barclays U.S. Aggregate Bond Index.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:
- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:
- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The Barclays U.S. Aggregate Bond Index is an unmanaged market value-weighted index for U.S. dollar denominated investment-grade fixed-rate debt issues, including government, corporate, asset-backed, and mortgage-backed securities with maturities of at least one year.

Duration is a measure of a security’s price sensitivity to changes in interest rates. Duration differs from maturity in that it considers a security’s interest payments in addition to the amount of time until the security reaches maturity, and also takes into account certain maturity shortening features (e.g., demand features, interest rate resets, and call options) when applicable. Securities with longer durations generally tend to be more sensitive to interest rate changes than securities with shorter durations. A fund with a longer average duration generally can be expected to be more sensitive to interest rate changes than a fund with a shorter average duration.

- Except for Life of Fund returns, the analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class’s actual inception of 12/30/1994. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 11/07/1973, adjusted to reflect the fees and expenses of this share class (when this share class’s fees and expenses are higher). Please refer to a fund’s prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Principal Fixed Account

VRS Code: 98309

Fund Objective: A fixed annuity contract issued by Principal Life Insurance Company. To provide a high quality investment option, earnings stability and liquidity while offering a guarantee of principal and interest.

Fund Strategy: The Principal Fixed Account is backed by the general account of Principal Life. This diversified general account portfolio consists of public and private securities, commercial and residential mortgages and U.S. agency securities. Competitive interest rates are set by The Principal annually and the rate remains fixed for the next 12 months it is in effect. Interest rates are subject to market risk. Return will vary.
**Fund Risk:** The fund is backed by a diversified portfolio of fixed-income assets held in the general account of the issuer. Guarantees are subject to the claims paying ability of the issuer. Restrictions or fees may apply to exchanges or withdrawals. The Contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the Contracts. In order to maintain the Contract issuers' promise to pay such withdrawals and exchanges at book value, the Contracts subject the fund and its participants to certain restrictions. For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund's securities, which may be less than your book value balance or may restrict withdrawals in these events.

Certain investment options offered by your plan (e.g., money market funds, short term bond funds, certain asset allocation/lifecycle funds and brokerage window) may be deemed by the Contract issuers to "compete" with this fund. The terms of the Contracts prohibit you from making a direct exchange from this fund to such competing funds. Instead, you must first exchange to a non-competing fund for 90 days. While these requirements may seem restrictive, they are imposed by the Contract issuers as a condition for the issuer's promise to pay certain withdrawals and exchanges at book value.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who seeks a slightly higher yield over the long term than is offered by money market funds, but who is willing to accept slightly more investment risk.
- Someone who is interested in balancing an aggressive portfolio with an investment that seeks to provide a declared crediting rate that is reset on a periodic basis.

**Footnotes:**
- The investment option is an annuity. The fund is managed by Principal Life Insurance Company. This description is only intended to provide a brief overview of the fund.
- No restrictions or additional fees, including surrender charges, will apply to the amount you withdraw as a result of retirement, death, disability, unforeseen hardship, separation from service, or attainment of age 65. The Principal Fixed Account is not a mutual fund and is underwritten and offered by Principal Life Insurance Company, which guarantees your principal and interest. Information furnished on the Principal Fixed Account was furnished by Principal Life. Fidelity Brokerage Services LLC and Principal Life Insurance Company are not affiliated.
- This investment option is not a mutual fund.

**Vanguard Dividend Growth Fund Investor Shares**

**VRS Code:** 96117

**Fund Objective:** The investment seeks to provide, primarily, a growing stream of income over time and, secondarily, long-term capital appreciation and current income.

**Fund Strategy:** The fund invests primarily in stocks that tend to offer current dividends. It focuses on high-quality companies that have prospects for long-term total returns as a result of their ability to grow earnings and their willingness to increase dividends over time. These stocks typically-but not always-will be large-cap, will be undervalued relative to the market, and will show potential for increasing dividends. The fund seeks to be diversified across industry sectors.

**Fund Risk:** Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Fund short term trading fees:** None

**Who may want to invest:**
- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Vanguard FTSE Social Index Fund Institutional Shares
VRS Code: 43131

Fund Objective: The investment seeks to track the performance of a benchmark index that measures the investment return of large- and mid-capitalization stocks.

Fund Strategy: The fund employs an indexing investment approach designed to track the performance of the FTSE4Good US Select Index. The index is composed of the stocks of companies that have been screened for certain social and environmental criteria by the index sponsor, which is independent of Vanguard. The Advisor attempts to replicate the index by investing all, or substantially all, of its assets in the stocks that make up the index.

Fund Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Institutional Index Fund Institutional Shares
VRS Code: 93556

Fund Objective: The investment seeks to track the performance of a benchmark index that measures the investment return of large-capitalization stocks.

Fund Strategy: The fund employs an indexing investment approach designed to track the performance of the Standard & Poor's 500 Index, a widely recognized benchmark of U.S. stock market performance that is dominated by the stocks of large U.S. companies. It attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

Fund Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Vanguard Prime Money Market Fund Admiral Shares

VRS Code: 44510

Fund Objective: The investment seeks to provide current income while maintaining liquidity and a stable share price of $1.

Fund Strategy: The fund invests primarily in high-quality, short-term money market instruments, including certificates of deposit, banker’s acceptances, commercial paper, Eurodollar and Yankee obligations, and other money market securities. To be considered high-quality, a security generally must be rated in one of the two highest credit-quality categories for short-term securities by at least two nationally recognized rating services. It invests more than 25% of its assets in securities issued by companies in the financial services industry.

Fund Risk: An investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the fund seeks to preserve the value of your investment at $1.00 per share, it is possible to lose money by investing in the fund. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who has a low tolerance for investment risk and who wishes to keep the value of his or her investment relatively stable.
- Someone who is seeking to complement his or her bond and stock fund holdings in order to reach a particular asset allocation.

Footnotes:

- As of December 11, 2015, this fund changed its share class from Institutional Shares.

Vanguard Small-Cap Index Fund Institutional Shares

VRS Code: 23466

Fund Objective: The investment seeks to track the performance of a benchmark index that measures the investment return of small-capitalization stocks.

Fund Strategy: The fund employs an indexing investment approach designed to track the performance of the CRSP US Small Cap Index, a broadly diversified index of stocks of small U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

Fund Risk: The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.
Vanguard Total International Stock Index Fund Institutional Shares

VRS Code: 77800

Fund Objective: The investment seeks to track the performance of a benchmark index that measures the investment return of stocks issued by companies located in developed and emerging markets, excluding the United States.

Fund Strategy: The fund employs an indexing investment approach designed to track the performance of the FTSE Global All Cap ex US Index, a float-adjusted market-capitalization-weighted index designed to measure equity market performance of companies located in developed and emerging markets, excluding the United States. The index includes approximately 5,550 stocks of companies located in 46 countries.

Footnotes:
- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The CRSP US Small Cap Index includes U.S. companies that fall between the bottom 2%-15% of the investable market capitalization. There is no lower limit in market capitalization, other than what is specified by investability screens.
- Except for Life of Fund returns, the analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 07/07/1997. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 10/03/1960, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Total Bond Market Index Fund Institutional Shares

VRS Code: 44511

Fund Objective: The investment seeks the performance of a broad, market-weighted bond index.

Fund Strategy: The fund employs an indexing investment approach designed to track the performance of the Barclays U.S. Aggregate Float Adjusted Index. This index represents a wide spectrum of public, investment-grade, taxable, fixed income securities in the United States—including government, corporate, and international dollar-denominated bonds, as well as mortgage-backed and asset-backed securities—all with maturities of more than 1 year. All of the fund's investments will be selected through the sampling process, and at least 80% of the fund's assets will be invested in bonds held in the index.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:
- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

You are not permitted to make a direct exchange from Principal Fixed Account to Vanguard Prime Money Market Fund Institutional Shares (considered “competing funds”). Before exchanging from Principal Fixed Account, you must first exchange to a “noncompeting” fund for 90 days. While these requirements may seem restrictive, they are typically imposed by issuers such as insurance companies, banks, or other approved financial institutions, as a condition for issuing investment contracts to retirement plans.
Transfer/Rollover/Exchange Form

Instructions

Reference the instructions below while completing the form. For additional assistance, please contact Fidelity Investments at 1-800-343-0860 or for the hearing impaired (TTY) 1-800-259-9743, Monday through Friday, 8 a.m. to midnight Eastern time (except for New York Stock Exchange holidays).

1. YOUR INFORMATION

Please provide your information in this section.

2. INVESTMENT PROVIDER YOU ARE MOVING MONEY FROM

Please review your most recent statement for this name and address, and include a copy of the statement with this form. Please contact your previous investment provider to see if additional paperwork is required.

3. ACCOUNT(S) OR CONTRACT(S) TO MOVE

Account or Contract Number: This number is available on your Previous Investment Provider account statement. If you are unable to locate this number on your statement, please contact the Investment Provider. If you do not provide an account or contract number, we will use your Social Security number or U.S. Tax Identification number to request the assets to be moved.

Type of Account or Contract: If you are unsure of the type of account or contract, please contact the Previous Investment Provider or refer to your statement. Select at least one.

The Account or Contract Number above is from: Please see the descriptions below that relate to each of the four transactions. If you choose “A Previous Employer,” provide the name of that employer.

The Same Employer as my Employer Plan with Fidelity. Movement of assets from 403(b) to 403(b) will be requested as a vendor or contract exchange. Movement of money between the same plan types, excluding 403(b) plans (401(a) to 401(a), 401(k) to 401(k), 457(b) to 457(b)), will be requested as an in-plan transfer. Movement of money between different plan types will be requested as a Rollover.

A Previous Employer. For 403(b) and 401(a)/(k) plans, this is a Rollover transaction. For governmental 457(b) plans, this is a rollover unless Fidelity receives direction to process as a transfer.

A Rollover IRA. This is a Rollover transaction. After-tax value may not be rolled from an IRA.

A Traditional IRA or SEP IRA. This is a Rollover transaction. Roth IRAs and Coverdell IRAs cannot be accepted.

Liquidation Amount: Specify the amount of money you want moved to your Fidelity account. If you choose “Full Liquidation/100%,” Fidelity will request your full balance. If you choose “Partial Liquidation,” Fidelity will request the dollar amount or percentage you specify. If you do not specify an amount, Fidelity will move/liquidate 100%. If you are moving 457(b) assets, please be aware that governmental 457(b) assets must be moved into a governmental 457(b) plan, and nongovernmental 457(b) assets must be moved into a nongovernmental 457(b) plan. Transfers from nongovernmental 457(b) plan are not provided for on this form. Talk with your plan sponsor or call Fidelity to discuss transfers from nongovernmental 457(b) plans. Rollovers from 403(b) plans, 401(a)/401(k) plans, and IRAs to governmental 457(b) plans must be recordkept in separate rollover sources to limit the distributions that may be subject to a 10% early distribution penalty.

4. YOUR FIDELITY ACCOUNT INFORMATION

If you do not have a retirement account with Fidelity for the employer listed here, you must complete the enrollment process. For help with enrollment, please contact Fidelity at 1-800-343-0860.

Employer sponsoring your Fidelity retirement account: The employer name appears on your Fidelity account statement or in your enrollment paperwork.

Plan Type with this employer: This information is required to ensure that Fidelity credits your assets to the proper account. Please contact Fidelity at 1-800-343-0860 or for the hearing impaired (TTY) 1-800-259-9743 if you do not know your type of account.

Plan Number: Please provide the Plan Number if you have multiple retirement plan accounts with Fidelity. Please contact Fidelity at 1-800-343-0860 to obtain the Plan Number.
5. INVESTMENT INSTRUCTIONS

Would you like the assets invested in your current investment selection? If “Yes” is selected, your assets will be allocated to your current investment selection on file with Fidelity. If you do not select “Yes,” please list the fund names, fund codes (if known) and percentages. Please ensure that the percentages equal 100%. Please list additional funds on a separate page and attach it to this form.

**Fund Name:** List the Fund Name(s) you want your assets credited to.

**Fund Code:** Provide the four-digit Fund Code(s) (if known).

**Percentage:** Please ensure that the percentages listed equal 100%.

**Note:** If the funds selected are unclear, unavailable, or less than 100%, the percentages allocated to those funds and/or any unallocated percentage will be defaulted to the investment option specified in the agreement currently in place with Fidelity for the Plan. If the percentages listed exceed 100%, the entire amount will be defaulted, as described above.

By signing this form:

• I hereby direct the investment provider identified on this form in Section 2 to liquidate the designated amount of the account(s) listed on this form, and to release the proceeds to my account under my employer’s plan, except to the extent my current employer or any of my former employers prohibit such release. In the event of such prohibition, I hereby direct said investment provider to retain the portion of my account(s) that cannot be released in a separate account or contract and to release the remainder.

• I hereby agree to the terms and conditions stated in this Form, including the instruction, and certify that I am requesting a vendor or contract exchange, in-plan transfer, or rollover, of my retirement plan assets in accordance with applicable IRS and plan rules.

• I certify under the penalties of perjury that my Social Security or U.S. Tax Identification number on this form is correct.

• I certify that the information provided on this form is true, accurate, and complete to the best of my knowledge.

• I acknowledge that I have read the prospectus(es) for any mutual fund in which I invest and agree to the terms.

• I hereby agree that if my assets will be sent to Fidelity in installments, the first installment may be invested according to my instructions on this form. All subsequent installment payments as well as any residual balances not received within 30 days will be invested according to the investment elections currently in place with Fidelity for the Plan at the time my assets are received by Fidelity.

• I direct and authorize Fidelity to send a duplicate disposition letter for this request to the individual listed in section 7 if applicable.

For 403(b)-to-403(b) vendor or contract exchanges

• I understand that any balances I am exchanging from a 403(b)(1) annuity into a 403(b)(7) custodial account may be subject to more restrictive withdrawal provisions.

• I understand that if I exchange a contribution source that is not allowed by the Plan, the value associated with the unacceptable source will be returned to the investment provider named in Section 2.

• I direct Fidelity to treat all monies as pretax contributions made subsequent to 12/31/88 unless my prior investment provider provides Fidelity with account balances as of 12/31/88 and post-1988 salary reduction contributions.

• I direct Fidelity to treat the entire balances as subject to minimum distribution requirements unless my prior investment provider provides Fidelity with account balances as of 12/31/86.

• I direct Fidelity to allocate the entire balance to the most restrictive source in the current employer’s plan unless my prior investment provider provides Fidelity with the sources of the exchanged amount under the previous plan.
