Spouse or same-sex domestic partner coverage fee

Spouses or partners who have access to health coverage through an outside employer, but prefer the Vanderbilt plan, will pay an additional $100 per month in payroll premiums.

Here is an overview of your options.

$ (no fee)

- Consider this option if your spouse or partner’s employer plan costs less when you calculate the $100 monthly fee into your costs.
- The type of coverage in your spouse or partner’s plan is similar to the Vanderbilt plan.
- Your spouse or partner’s coverage isn’t as comprehensive as Vanderbilt’s, but choosing it makes the most sense for your budget.

NOTE: There is no additional fee to cover your child dependents on the Vanderbilt Plan.
